## **Solar Salt Professional Grade Water Softener Salt**

**Blue Bag Professional Grade** solar salt is made from solar salt imported from South America. The product is imported in boatload quantities, discharged, stored in a covered pile, then dried to remove excess surface moisture.

Salt is dried in a fluidized bed, vibrating dryer at 450 ° F.

The salt is dried to less than 0.07% moisture, then cooled to ambient temperature.

There are NO additives.

### **Typical screen analysis:**

<b>-1" + 1/4"</b>	<b>71%</b>
<b>- 1/4", + 10 mesh</b>	<b>27%</b>
<b>- 10 mesh</b>	<b>2%</b>

### **Typical Chemical analysis:** **Method reference: FCC, 4<sup>th</sup>** **Edition**

<b>Sodium chloride</b>	<b>99.8% -99.9%</b>
<b>Calcium &amp; magnesium</b>	<b>&lt;0.10 %</b>
<b>Heavy metals ( as lead)</b>	<b>&lt; 1 ppm</b>
<b>Arsenic</b>	<b>&lt; 1 ppm</b>
